AUGUST UNIFORM PRICE \$3.77

A uniform price of \$3.77 per cwt. was computed for 3.5% milk delivered by producers to handlers subject to the Fort Wayne Milk Order. For milk of a higher or lower test this price will be adjusted by a butterfat differential of 6.9 cents for each one-tenth of one percent that individual tests vary above or below the 3.5% standard. This minimum price is subject to the applicable marketing service deduction, authorized hauling charges and transportation tax. The computation of this blend price is shown on page 4 and the class prices on page 3.

The \$3.77 price for August 1957 is 3 cents above the August price of a year ago. It is 11 cents above the July 1957 price.

PRODUCTION AND UTILIZATION

Dairy farmers shipped 8.9 million pounds of milk to the Fort Wayne market during August 1957. This is 0.4 million pounds or 5% less milk than a year ago. 5.1 million pounds; 57% of the total milk production, was utilized as Class I milk (fluid milk and cream products) by the Fort Wayne handlers.

Average production per farm per day was 313 pounds for August 1957 as compared with 321 pounds a year ago. Producers on the market for August 1957 numbered 918, which is 19 less than a year ago.
